Application amount: 1 lb/100 ft<sup>2</sup>, 50 g/m<sup>2</sup>

Natural Mineral Formula is Safe for Animals and Humans

# Provides Around-the Clock Protection When Applied 3 Times Per Week

## Stalosan F Helps You Improve Your Dairy Farm Health Standards

Its active ingredients are proven to kill pathogens and reduce ammonia to improve environmental conditions for cows, calves, and handlers alike.

Stalosan F is particularly useful during the spring and fall “wet seasons” and is ideal for:

- Spreading in stalls
- Dressing calving areas
- Using in calf pens/hutches

By using Stalosan F in your dairy sanitation program, you will:

 <p><b>REDUCE DISEASE</b></p>	 <p><b>REDUCE TREATMENT AND VETERINARY COSTS</b></p>	 <p><b>IMPROVE YOUR PRODUCTION ENVIRONMENT</b></p>
<p>Stalosan F reduces incidence of dermatitis and coccidiosis</p>	<p>In addition to reducing infections and disease, Stalosan F reduces parasitic infections and fly infestations</p>	<p>Stalosan F keeps your barn environment drier, and therefore healthier, optimizing cow performance</p>

Trusted by producers around the world for over 50 years
